2 parent family and 1 parent family

Toddler care falls under the Childcare Act. You can get a contribution to the costs of childcare through the childcare allowance of the Ministry of Education, Culture and Science. Conditions include that you both work or study. The costs for toddler care with childcare allowance are calculated over 40 school weeks divided by 12 months. Toddlers can be placed from 2 years and 3 months.

2 parent family of which 1 parent works

The municipality of Haarlem subsidizes parents who are not entitled to the childcare allowance. The parental contribution is calculated on the basis of the income data (see also VNG table). You pay a parental contribution in which the subsidy from the municipality has already been settled. We will then need the following from you:

1. a signed 'Declaration of No Entitlement to Childcare Allowance'. You will receive this form from us by e-mail.
2. a recent income statement of you or your partner, determined by the Tax and Customs Administration. You can download it for free from the website of the tax authorities. You will need your DIGID for this.

3. From the parent who does not work, we need a signed 'Declaration of No Income'. You will receive this form from us.

The costs for toddler care without childcare allowance are calculated over 40 school weeks divided by 12 months. This is **a maximum of two half-days of** toddler care per child per week. Toddlers can be placed from 2.5 years old.

Toddler care with VE (referral Preschool Education)

Toddlers who have received a VE referral (Preschool Education) from the child health clinic come to toddler care 16 hours (4 mornings) per week. The first 2 mornings parents pay according to income via VNG table or (if both parents work or study) via the Childcare Allowance (KOT), the 3rd and 4th mornings are free.

Toddlers can be placed from 2.5 years old.

Haarlem Pass

Parents who are in possession of a Haarlem Pass can make use of 2 mornings of free toddler care when submitting a copy to Les Petits. Toddlers can be placed from 2.5 years old.
